Frontend Technologies

HTML5, CSS3, Bootstrap, React.js

Backend Technologies

Java (Servlet, JSP)

Databases

MySQL, H2

Utilities

Git, VS Code, Eclipse

Others

REST APIs

STRENGTHS

Technical Proficiency

Deep knowledge of web technologies and frameworks for modern application development.

Strong Communication

Strong communication skills with a collaborative team approach.

Problem Solving

Effective problem-solving through logical analysis, debugging, and optimization for scalable solutions.

INTERNSHIP EXPERIENCE

Front End Development Intern

Mar 2025

Virtual Tech Services , Chennai

- Developed responsive UI components using HTML, CSS, and Bootstrap.
- Improved cross-browser compatibility and ensured mobile responsiveness.
- Used GitHub for version control and collaborative development

Java Full Stack Developer Intern

Jan 2025

Silicon Software Services, Madurai

- Built full-stack web solutions using Java, Eclipse, and web technologies
- Developed data-driven features backed by MySQL databases.
- Designed interactive frontends and integrated robust server-side logic

PROJECTS

Frontend - UI Sections

- Built a modern, responsive landing website with navbar, hero section, feature cards, and pricing table.
- Added interactive contact form with JavaScript input validation for smooth user experience.
- Technologies: HTML, CSS, Javascript, Bootstrap

Ticket Booking Web Application – Frontend + Backend

- Enabled users to book tickets with real-time availability checks
- Developed user-friendly interface and integrated admin features
- Technologies: JavaScript, HTML/CSS, Java Servlets, MySQL

INTEREST

- Web application development
- Exploring new frameworks and libraries (React.js, Node.js)
